

What Are Your Salary Expectations?

The question that determines
your **Acceptance** or **Rejection**

As human beings, we do the following:

1 Always Seeking Better Opportunities

We are constantly on the lookout for roles that offer more potential and higher earning power.

2 Higher Salaries, Greater Responsibilities

Premium salaries reflect the critical nature and complex challenges of AI roles.

3 Maximizing Earning Potential

We prioritize opportunities that allow us to maximize our earning potential and achieve our financial goals.

4 Better working environment

We focus on finding roles that offer a good working environment which make the journey easier.

Industries Leading the Hiring Charge

Which industries present the best AI opportunities?
Let's explore.

```
14 SELECT industry, COUNT(*) AS job_count
15 FROM visualization_data
16 GROUP BY industry
17 ORDER BY job_count DESC
```

Results Messages

	industry	job_count
1	Retail	989
2	Media	978
3	Automotive	960

14	Gaming	900
15	Manufacturing	895

Average Salaries Per Position

AI is known for high salaries, but AI isn't a job title—it's a field with dozens of specialized branches.

Let's explore these branches and their salaries.

```
4 SELECT job_title, AVG(salary_usd) as AVG_Salary
5 from visualization_data
6 GROUP BY job_title
7 ORDER BY AVG_Salary DESC
```

Results Messages

	job_title	AVG_Salary
1	AI Specialist	127055
2	Machine Learning Engineer	126601
3	Head of AI	126291
